

Zero Waste means reducing the volume and toxicity of waste we generate, and conserving and recovering resources instead of burning or burying them.

I PLEDGE TO:

- Practice the 4Rs (Reduce, Reuse, Recycle, and Rot) at home and at school whenever I can to reduce sending garbage to be buried in the landfill.
- Practice Zero Waste just like CVSan’s character, ZERO! For example, I can:
 - Use things that I can reuse, recycle or compost (rot) at school lunch so that I don’t send garbage to landfill.
 - Use take-out cups with no lid and no straw to reduce garbage.
 - Only take what I will eat, save for later, or share, so I do not waste food.
