

Does that go down the drain?

Before you pour, ask yourself the following questions and check the materials that cannot go down the drain. Thank you for keeping Castro Valley sanitary sewers clean!

IS IT HAZARDOUS?

- No hazardous waste (paint, antifreeze, chemical cleaning agents, pesticides, untreated biohazardous waste, etc.)
- No caustic, reactive, or flammable waste (gasoline, bleach, etc., any waste with pH lower than 5.5 or higher than 9)
- No persistent pollutant waste (mercury, lead, silver, other inorganic compounds, etc.)
- No controlled substances and pharmaceuticals
- No radioactive waste

CASTRO VALLEY SANITARY DISTRICT

510-537-0757 | www.cvsan.org

IS IT A LIQUID?

- No solids, sludges, or viscous substances
- No powders or salts
- No solid waste (food, floss, hair, paper towels)

WILL IT INTERFERE WITH TREATMENT OPERATIONS?

- No grease, fats, or oils
- No hot liquids in large quantities
